

Are you interested in making a positive impact on our local waterways and environment? Check with the Community Development Department about becoming a part of the Bay Star Home program. It's free, fun, and easy to do. Just choose to do small things around your home, and you can be part of the program. Applications are available in the Community Development Department or online at www.BayStarHomes.org. Once you complete the form, you'll receive a Welcome packet and a Bay Star Home garden flag for your yard. Call Beth Lewis, 562-1003 for more information.
