## INDEPENDENT AUDITOR'S REPORT

Honorable Members of the  
Board of Supervisors  
County of Southampton, Virginia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Southampton, Virginia, as of and for the year ended June 30, 2006, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County of Southampton, Virginia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards and specifications require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Southampton, Virginia, as of June 30, 2006, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2006, on our consideration of the County of Southampton, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and budgetary comparison information on pages 1 through 9 and 44 through 49, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Southampton, Virginia's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the County of Southampton, Virginia. The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

The management of the County of Southampton, Virginia presents the following discussion and analysis as an overview of the County of Southampton, Virginia's financial activities for the fiscal year ending June 30, 2006. We encourage readers to read this discussion and analysis in conjunction with the transmittal letter and the County's financial statements.

### Financial Highlights for Fiscal Year 2006

#### Highlights for Government-Wide Financial Statements

- At the close of the fiscal year, the assets of the County, excluding its Component Unit, exceeded its liabilities by \$39,442,249. Of this amount, \$8,185,923 is unrestricted and may be used to meet the government's ongoing obligations to citizens and creditors.
- For the fiscal year, general and program revenues of the County's governmental activities were \$23,920,751 and expenses amounted to \$21,945,167. The County's total net assets increased \$1,975,584.
- For business-type activities, revenues were \$1,684,778 and expenses were \$1,724,251. The net assets decreased by \$39,473.

#### Highlights for Fund Financial Statements

- As of June 30, 2006, the County Governmental Funds reported combined fund balances of \$7,932,923, a decrease of \$450,005 in comparison with the prior year. Approximately 62.4% of the combined fund balances, \$4,950,960, is available to meet the County's current and future needs.
- The General Fund reported a fund balance of \$4,950,960, an increase of \$454,256 from June 30, 2005.

## OVERVIEW OF THE FINANCIAL STATEMENTS

This Comprehensive Annual Financial Report consists of two sections: financial and compliance.

- The financial section has three component parts - management's discussion and analysis (this section), the basic financial statements which include government-wide financial statements and fund financial statements, and required supplementary information.
- The compliance section is required under the provisions of the Single Audit Act of 1984 and the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, if applicable.

In the past, the primary focus of local government financial statements has summarized fund type information on a current financial resource basis. This approach has been modified and now consists of two kinds of statements, each with a different view of the County's finances. The new government-wide financial statements provide both long-term and short-term information about the County's overall financial status. The fund financial statements, which have been provided in the past, focus on individual parts of the County's government, reporting the County's operations in more detail than the government-wide statements. The basic financial statements also contain notes to explain in greater detail, the information found in the financial statements.

## Government-Wide Financial Statements

The government-wide financial statements report information about the County as a whole using accounting methods similar to those found in the private sector. They also report the County's net assets and how they have changed during the fiscal year.

The first government-wide statement - the Statement of Net Assets - presents information on all of the County's assets and liabilities. The difference between assets and liabilities, net assets, can be used as one way to measure the County's financial health, or financial condition. Over time, increases or decreases in the net assets can be one indicator of whether the County's financial condition is improving or deteriorating. Other nonfinancial factors will also need to be considered, such as changes in the County's property tax base and the condition of County facilities.

The second statement - the Statement of Activities - presents information using the accrual basis accounting method and shows how the County's net assets changed during the fiscal year. All of the current year's revenues and expenses are shown in the Statement of Activities, regardless of when cash is received or paid.

The government-wide statements are divided into the following three categories:

Governmental Activities: Most of the County's basic services are reported here, including general government administration; judicial administration; public safety; public works; health and welfare; education; parks, recreation, and cultural; and community development. These activities are financed primarily by property taxes, other local taxes, and Federal and State grants. Governmental Funds are included in the governmental activities.

Business-Type Activities: County of Southampton, Virginia has a Proprietary Enterprise Fund that accounts for the water and sewer system for the County.

Discretely Presented Component Unit: The County includes the Southampton County Public Schools in its annual financial report. Although legally separate, this component unit is important because the County is financially accountable for it.

## Fund Financial Statements

Traditional users of government financial statements will find the fund financial statements more familiar. These statements provide more detailed information about the County's most significant funds. Funds are used to ensure compliance with finance-related legal requirements and are used to keep track of specific sources of revenue and expenses for particular purposes. The County has three kinds of funds:

Governmental Funds - Most of the County's basic services are included in Governmental Funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances remaining at year-end that are available for spending. The Governmental Funds financial statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the County's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information is provided with the fund's financial statements to explain the relationship (or differences). The General Fund is the main operating account of the County and, therefore, the largest of the Governmental Funds. All other Governmental Funds, which include Special Revenue Funds and Capital Projects Funds, are collectively referred to as nonmajor Governmental Funds.

**Proprietary Funds** - Proprietary Funds, which consist of Enterprise Funds, operate in a manner similar to private business enterprises in which costs are recovered primarily through a user charge. Proprietary Fund financial statements provide both long and short-term financial information. The County has a Water and Sewer Fund that generates revenue based on consumer charges.

**Fiduciary Funds** - Fiduciary Funds are used to account for resources held by the County for the benefit of parties outside the government. Fiduciary Funds are not reflected in the government-wide statements because the funds are not available to support the County's programs. The County's Fiduciary Funds consist of Agency Funds. The funds are used to account for monies received, held, and disbursed on behalf of the Blackwater Regional Library and Special Welfare Fund.

## FINANCIAL ANALYSIS OF THE COUNTY AS A WHOLE

### Statement of Net Assets

The Commonwealth of Virginia requires that counties, as well as their financial dependent component units, be financed under a single taxing structure. This results in counties issuing debt to finance capital assets, such as public schools, for their component units. For the purpose of this financial statement, the debt and correlating asset (or portion therefore) is recorded as an asset and long-term liability of the primary government. GASB Statement No. 14, *The Financial Reporting Entity*, requires that the primary government and its component units, which make up the total reporting entity, be accounted for separately on the face of the basic financial statements. The net assets of the total financial reporting entity best represent the entity's financial position. In the case of the County's reporting entity, assets exceeded liabilities by \$39,442,249 at June 30, 2006. The largest portion of the reporting entity's net assets, \$31,256,326, reflects investment in capital assets (e.g., land, buildings, and equipment), less the outstanding debt associated with the asset acquisition.

## Statement of Activities

The following table summarizes revenues and expenses for the primary government as of June 30, 2006:

Governmental activities increased the County's net assets by \$1,975,584 for fiscal year 2006. Revenues from governmental activities totaled \$23,920,751. Taxes comprise the largest source of these revenues, totaling \$15,652,454 or 65.4% of all governmental activities revenue. Of this amount, real and personal property taxes comprise 85.5% of the taxes collected.

The total cost of all governmental activities for this fiscal year was \$21,945,167. Education continues to be the County's largest program and highest priority with expenses totaling \$7,534,501. Public Safety expenses, which total \$5,526,988, represent the second largest expense, followed by Health and Welfare expenses which total \$2,424,670.

For the County's governmental activities, the net expense (total cost less fees generated by the activities and program-specific governmental aid) is illustrated in the following table:

### Net Cost of Governmental Activities

For the Fiscal Years Ended June 30, 2006 and 2005

	<u>2006</u>		<u>2005</u>	
	<u>Total Cost of Services</u>	<u>Net Cost of Services</u>	<u>Total Cost of Services</u>	<u>Net Cost of Services</u>

Interest on long-term debt	573,535	(573,535)	712,758	(712,758)
Total	<b>\$ 21,945,167</b>	<b>\$ (14,704,274)</b>	<b>\$ 21,398,780</b>	<b>\$ (14,371,937)</b>

### FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

As of June 30, 2006, the County's Governmental Funds reported a combined ending fund balance of \$7,932,923, a decrease of \$450,005 in comparison with the prior year. Approximately 62.4%, or \$4,950,960, is available for spending at the government's discretion (unreserved/undesignated fund balance).

The General Fund is the main operating fund of the County. At the end of the current fiscal year, the General Fund had an unreserved fund balance of \$4,950,960 and a reserved fund balance of \$-0-. The General Fund's liquidity can be measured by comparing both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 24.6% of total fund expenditures.

- The General Fund contributed \$8,545,202 in operating funds to finance the Schools' operations and the Capital Projects Utility Tax Building Fund contributed \$262,566.

Included in the Other Governmental Funds is the Capital Projects Fund which has a total fund balance of \$2,237,201, all of which is designated for ongoing and future capital projects.

## BUDGETARY HIGHLIGHTS

### General Fund

Change in Fund Balance after Surplus	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 454,256</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ (59,366)</u>

The final amended budget appropriations for expenditures and transfers out exceeded the original appropriation by \$1,805,642. This increase is due primarily to special community and economic development projects, such as funds to local industries.

Final amended budget revenues and transfers in were more than the original budget by \$754,358, primarily due to the same projects mentioned above.

Actual revenues exceeded final budget amounts by \$1,433,064, or 7.2%, while actual expenditures were \$732,427, or 3.5% less than final budget amounts.

## CAPITAL ASSETS AND LONG-TERM DEBT

### Capital Assets

As of June 30, 2006, the County's investment in capital assets totals \$20,886,276, which is net capital assets less related debt for governmental activities and \$10,370,050 for business-type activities.

During fiscal year 2006, the County's net capital assets (including additions, decreases, and depreciation) increased \$856,942, or 2.4%, for governmental activities and decreased \$447,580, or 2.9%, for business-type activities, as summarized below:

### Change in Capital Assets

Total Primary Government	<u>\$ 22,479,501</u>	<u>\$ (1,631,401)</u>	<u>\$ 20,848,100</u>
<b>Component Unit School Board</b>			
Compensated absences	<u>\$ 288,445</u>	<u>\$ 14,308</u>	<u>\$ 302,753</u>

General obligation indebtedness must be approved by voter referendum prior to issuance except for debt incurred from the State Literary Fund or the Virginia Public School Authority.

More detailed information on the County's long-term obligations is presented in Note 8 to the financial statements.

## ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

- The average unemployment rate for the County of Southampton, Virginia in June 2006 was 4.0%, a decrease of .7% from June 2005. This compares unfavorably to the state's rate of 3.3% and favorably to the national rate of 4.8%. The September 2006 unemployment rate for the County was 4.1% compared to the state's rate of 3.1% and the national rate of 4.8%.
- According to the 2000 U.S. Census, the population in Southampton County, Virginia was 17,482, a decrease of 2.7%, since the 1990 U.S. Census.
- The per capita income in Southampton County, Virginia was \$35,241, compared to \$23,975 for the state, according to the 2000 U.S. Census data.

The fiscal year 2007 Adopted Budget anticipates General Fund revenues and expenditures to be \$21,920,698, a 3.07% increase over the fiscal year 2006 budget. Revenues are comprised primarily of General Property Taxes at 66.9% with Other Local Taxes comprising 3.97%. The County's transfer to fund Education operations continues to be the largest expenditure area at 40.87% of total expenditures.

## REQUESTS FOR INFORMATION

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the County's finances and to demonstrate the County's accountability for the money it receives. Questions concerning this report or requests for additional information should be directed to Michael W. Johnson, County Administrator, or Julia G. Williams, Finance Director, County of Southampton, Virginia, 26022 Administration Center Drive, Courtland, Virginia 23837, telephone 757-653-3015, or visit the County's website at [www.southamptoncounty.org](http://www.southamptoncounty.org).

County of Southampton, Virginia

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Assets

At June 30, 2006

Total fund balances for Governmental Funds		\$ 7,932,923
Total net assets reported for governmental activities in the Statement of Net Assets is different because:		
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. Those assets consist of:		
Land	1,092,897	
Buildings and improvements, net of accumulated depreciation	32,161,276	
Furniture, equipment, and vehicles, net of accumulated depreciation	<u>3,303,466</u>	
Total Capital Assets		36,557,639
Liabilities applicable to the County's governmental activities are not due and payable in the current period and, accordingly, are not reported as fund liabilities.		
Balances of long-term liabilities affecting net assets are as follows:		
Bonds and notes payable	(15,671,363)	
Compensated absences	<u>(481,065)</u>	
Total		<u>(16,152,428)</u>
Total net assets of governmental activities		\$ <u>28,338,134</u>

County of Southampton, Virginia

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances  
of Governmental Funds to the Statement of Activities

Year Ended June 30, 2006

Net change in fund balances - total Governmental Funds \$ (450,005)

Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period. 856,942

Bond and capital lease proceeds are reported as financing sources in Governmental Funds and thus contribute to the change in fund balance. In the Statement of Net Assets, however, issuing debt increases the long-term liabilities and does not affect the Statement of Activities. Similarly, the repayment of principal is an expenditure in the Governmental Funds but reduces the liability in the Statement of Net Assets.

Repayments on debt	<u>1,526,760</u>	
Net Adjustment		1,526,760

Under the modified accrual basis of accounting used in the Governmental Funds, expenditures are not recognized for transactions that are not normally paid with expendable financial resources. In the Statement of Activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. This adjustment combines the net changes of the following:

Compensated absences	(176,667)	
Interest payable	<u>218,554</u>	
Net Adjustment		<u>41,887</u>

Change in net assets of governmental activities \$ 1,975,584

The accompanying notes to financial statements are an integral part of this statement.

## County of Southampton, Virginia

### Notes to Financial Statements

Year Ended June 30, 2006

## 1 Summary of Significant Accounting Policies

### *Narrative Profile*

The County of Southampton, Virginia (the "County"), which was founded in 1749, has a population of approximately 17,500 living within an area of 599 square miles. The County is located in the Tidewater area in Southeastern Virginia. The County is governed by an appointed County Administrator and a seven-member Board of Supervisors with each serving administrative and legislative functions.

The County is governed under the traditional county government. The County of Southampton, Virginia engages in a comprehensive range of municipal services, including general government administration, judicial administration, public safety, public works, health and welfare, education, parks, recreation, and cultural, and community development.

The financial statements of the County of Southampton, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the government's accounting policies are described below.

### **A.** *The Financial Reporting Entity*

In June 1999, GASB issued Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. This statement, known as the "Reporting Model" statement, affects the way the County prepares and presents financial information. State and local governments traditionally have used a financial reporting model substantially different from the one used to prepare private sector financial reports.

GASB Statement No. 34 established new requirements and a new reporting model for the annual financial reports of state and local governments. The Statement was developed to make annual reports easier to understand and more useful to the people who use governmental financial information to make decisions and includes:

- Management's Discussion and Analysis: GASB Statement No. 34 requires that financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "management's discussion and analysis" (MD&A). This analysis is similar to analysis the private sector provides in their annual reports.
- Government-Wide Financial Statements: The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities (such as cash and accounts payable) but also capital assets and long-term liabilities (such as buildings and infrastructure, including bridges and roads, and general obligation debt). Accrual accounting also reports all of the revenues and cost of providing services each year, not just those received or paid in the current year or soon thereafter.

- Statement of Net Assets: The Statement of Net Assets is designed to display the financial position of the primary government (government and business-type activities) and its discretely presented component units. Governments report all capital assets, including infrastructure, in the government-wide Statement of Net Assets and report depreciation expense – the cost of “using up” capital assets – in the Statement of Activities. The net assets of a government will be broken down into three categories: 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.
- Statement of Program Activities: The new government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government’s functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).
- Budgetary Comparison Schedules: Demonstrating compliance with the adopted budget is an important component of a government’s accountability to the public. Many citizens participate in the process of establishing the annual operating budgets of state and local governments and have a keen interest in following the actual financial progress of their governments over the course of the year. The County and many other governments revise their original budgets over the course of the year for a variety of reasons. Under the new reporting model, governments will continue to provide budgetary comparison information in their annual reports. An important change, however, is a requirement to add the government’s original budget to the current comparison of final budget and actual results for its major funds.

As required by the accounting principles generally accepted in the United States, these financial statements present the primary government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government’s operations and so data from these units are combined with data of the primary government. The County has no component units that meet the requirements for blending. The discretely presented component unit, on the other hand, is reported in a separate column in the government-wide statements to emphasize it is legally separate from the primary government. The discretely presented component unit has a June 30 fiscal year-end.

## **Inclusions in the Reporting Entity**

### **Component Unit**

#### *Southampton County School Board*

The Southampton County School Board is appointed to four year terms. The School Board may hold property and issue debt subject to approval by the Board of Supervisors. The School Board provides public primary and secondary education services to the County residents. The primary funding sources of the School Board are State and Federal grants and appropriations from the County, which are significant since the School Board does not have separate taxing authority. The County also approves the School Board budget. The School Board does not issue separate financial statements.

## Exclusions from the Reporting Entity

### Jointly Governed Organizations

Jointly governed organizations are regional governments or other multi-governmental arrangements that are governed by representation from each of the governments that create the organizations, and the participants do not retain an ongoing financial interest or responsibility in the organization.

The financial activities of the following organizations are excluded from the accompanying financial statements for the reasons indicated:

#### *Blackwater Regional Library*

The Blackwater Regional Library provides library services to the County of Southampton, Virginia. The participating localities provide annual contributions for operations based on book circulation. No one locality contributes more than 50% of the Library's funding nor can impose its will on the organization, and there is no financial benefit/burden relationship. The County appropriated to the Library \$183,877 in operating funds in fiscal year 2006. The County has no equity interest in the Library.

#### *Western Tidewater Community Services Board*

The Cities of Suffolk and Franklin and the Counties of Isle of Wight and Southampton jointly participate in the Western Tidewater Community Services Board (the Board). The Board provides input to state and local agencies on service needs and priorities of persons with physical and sensory disabilities.

### Related Organization

#### *Industrial Development Authority of Southampton County, Virginia*

The Industrial Development Authority (the "Authority") of Southampton County, Virginia was created in 1969. The Authority is authorized to acquire, own, lease, and dispose of local properties which will potentially promote industry and develop trade in Virginia through locating and remaining in the area. The Authority assists new and expanding businesses in securing low interest, tax-exempt industrial development revenue bonds. Bonds are issued when financing these facilities, covering the cost of land, buildings, machinery, or equipment. A mortgage or lien on the financed property is then secured and repaid from the revenue of the project. The Authority is governed by a seven-member board appointed by the Southampton County Board of Supervisors. The County of Southampton, Virginia has no financial responsibility for the debt issued by the Authority.

## **B. Government-Wide and Fund Financial Statements**

The basic financial statements include both government-wide (based on the County as a whole) and fund financial statements. While the previous reporting model emphasized fund types (the total of all funds of a particular type), in the new reporting model the focus is on either the County as a whole or major individual funds (within the fund financial statements). The focus is on both the County as a whole and the fund financial statements, including the major individual funds of the governmental and business-type categories, as well as the Fiduciary Funds (by category), and the Component Units. Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business-type. In the

government-wide Statement of Net Assets, the governmental activities columns (a) are presented on a consolidated basis, and (b) are reflected, on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations. Each presentation provides valuable information that can be analyzed and compared (between years and between governments) to enhance the usefulness of the information. The County generally first uses restricted assets for expenses incurred for which both restricted and unrestricted assets are available. The County may defer the use of restricted assets based on a review of the specific transaction.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) that are otherwise being supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and 2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as general revenues. The County does not allocate indirect expenses. The operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

Proprietary Fund operating revenues consist of charges for services and related revenues. Nonoperating revenues consist of contributions, grants, investment earnings, and other revenues not directly derived from the providing of services.

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The fund statements are presented on a current financial resource and modified accrual basis of accounting.

This is the manner in which these funds are normally budgeted. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is presented which briefly explains the adjustment necessary to reconcile the fund financial statements to the governmental column of the government-wide financial statements.

The County applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989 unless these pronouncements conflict with or contradict GASB pronouncements.

The County's Fiduciary Funds are presented in the fund financial statements by type (agency). Since by definition, these assets are being held for the benefit of a third party (other local governments, private parties, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements. The following is a brief description of the specific funds used by the County in fiscal year 2006:

1. *Governmental Funds*

Governmental Funds account for the expendable financial resources, other than those accounted for in Proprietary and Fiduciary Funds. The Governmental Funds utilize the modified accrual basis of accounting where the measurement focus is upon determination of financial position and changes in financial position, rather than upon net income determination as would apply to a commercial enterprise. The individual Governmental Funds are:

a. General Fund – The General Fund is the primary operating fund of the County and accounts for all revenues and expenditures applicable to the general operations of the County which are not accounted for in other funds. Revenues are derived primarily from property and other local taxes, licenses, permits, charges for services, use of money and property, and intergovernmental grants. The General Fund is considered a major fund for financial reporting purposes.

b. Special Revenue Funds – Special Revenue Funds account for the proceeds of specific revenue sources (other than those derived from special assessments, expendable trusts, or dedicated for major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action. Special Revenue Funds include the following funds:

Federal Grants Fund – This fund accounts for various Federal and State grant funds mainly associated with the FEMA disaster and Community Block Grant Projects.

Public Assistance Fund – This fund accounts for County revenues collected and disbursed for welfare recipients of the County.

911 Fund – This fund accounts for County revenues assessed for the operation and maintenance of the Enhanced 911 emergency response system.

Forfeiture Fund – This fund accounts for County revenues and expenditures associated with the Sheriff's Department and Commonwealth's Attorney's department related to asset and drug forfeitures.

Law Library Fund – This fund accounts for the operation and maintenance of the County's law library.

Canteen Fund – This fund accounts for the operations and maintenance of the general store of the jail.

Inmate Fund – This fund accounts for the inmates' operation within the jail.

- c. Debt Service Funds - The County does not account for its debt service in a separate fund. The debt is paid from either the General Fund or the Component Unit School Board Fund.
- d. Capital Projects Funds - Capital Projects Funds account for financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by Proprietary Funds. The Capital Projects Funds consist of the Utility Tax Building Fund.

2. *Proprietary Funds*

Proprietary Funds account for operations that are financed in a manner similar to private business enterprises. The Proprietary Funds utilize the accrual basis of accounting where the measurement focus is upon determination of net income, financial position, and changes in financial position. Proprietary Funds consist of Enterprise and Internal Service Funds.

- a. Enterprise Funds - Enterprise Funds account for operations that are financed and operated in a manner similar to private business enterprises. The intent of the County is that the cost of providing services to the general public be financed or recovered through user charges. The Enterprise Fund consists of the Water and Sewer Fund.
- b. Internal Service Funds - Internal Service Funds account for the financing of goods or services provided by one department or agency to other departments or agencies of the County government, on a cost-reimbursement basis. Internal Service Funds are not used by the County at this time.

3. *Fiduciary Funds (Trust and Agency Funds)*

Fiduciary Funds (Trust and Agency Funds) account for assets held by a governmental unit in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. The funds include Private Purpose Trust and Agency Funds. Private Purpose Trust Funds utilize the accrual basis of accounting as described in the Proprietary Funds presentation. Agency Funds utilize the modified accrual basis of accounting described in the Governmental Funds presentation. The Private Purpose Trust and Agency Funds consist of the following:

- a. Private Purpose Trust Funds - The County has no Private Purpose Trust Funds at this time.
- b. Agency Funds

Special Welfare Fund – This fund accounts for monies provided primarily through private donors for assistance of children in foster care, needy senior citizens, and others. This fund is also used to account for monies received from other governments and individuals (i.e., social security and child support) to be paid to special welfare recipients.

Blackwater Regional Library Fund – This fund accounts for the operation and maintenance of the regional library of the County. The County acts as fiscal agent for the Library.

4. *Component Unit (Southampton County School Board)*

The Southampton County School Board has the following funds:

School Operating Fund – This fund is the primary operating fund of the School Board and accounts for all revenues and expenditures applicable to the general operations of the public school system. Revenues are derived primarily from charges for services, appropriations from the County of Southampton, Virginia, and State and Federal grants. The School Operating Fund is considered a major fund of the School Board for financial reporting purposes.

School Food Services Fund – This fund accounts for the operations of the School Board's food service program. Financing is provided primarily by food and beverage sales and State and Federal grants.

School Endowment Fund – This fund consists of money donated by individuals to be used in the future at the schools' discretions.

**C. Basis of Accounting**

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All Governmental Funds are accounted for using the current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet in the funds statements. Long-term assets and long-term liabilities are included in the government-wide statements. Operating statements of the Governmental Funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The government-wide Statements of Net Assets and Statements of Activities and the Proprietary Fund are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these activities are either included on the Statement of Net Assets or on the Statement of Fiduciary Net Assets. Proprietary fund-type operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets.

The fund financial statements of the General, Special Revenue, Capital Projects, and Agency Funds (for the primary government and Component Unit School Board) are maintained and reported on the modified accrual basis of accounting using the current financial resources measurement focus. Under this method of accounting, revenues are recognized in the period in which they become measurable and available. With respect to real and personal property tax revenue and other local taxes, the term "available" is limited to collection within forty-five days of the fiscal year-end. Levies made prior to the fiscal year-end but which are not available are deferred. Interest income is recorded as earned. Federal and State reimbursement-type grants are recorded as revenue when related eligible expenditures are incurred. Expenditures, other than accrued interest on long-term debt, are recorded when the fund liability is incurred.

## **D. Budgets and Budgetary Accounting**

The Board of Supervisors annually adopts budgets for the various funds of the primary government and Component Unit School Board. All appropriations are legally controlled at the department level for the primary Government Funds. The School Board appropriation is determined by the Board of Supervisors and controlled in total by the primary government.

The budgets are integrated into the accounting system, and the budgetary data, as presented in the financial statements for all major funds with annual budgets, compare the expenditures with the amended budgets. All budgets are presented on the modified accrual basis of accounting. Accordingly, the Budgetary Comparison Schedule for the major funds presents actual expenditures in accordance with the accounting principles generally accepted in the United States on a basis consistent with the legally adopted budgets as amended. Unexpended appropriations on annual budgets lapse at the end of each fiscal year.

### *Encumbrances*

Encumbrance accounting, the recording of purchase orders, contracts, and other monetary commitments in order to reserve an applicable portion of an appropriation, is not used by the County or the Component Unit School Board.

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

1. Prior to April 1, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating budget and capital budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain citizen comments. Work sessions between the Board of Supervisors and School Board are conducted on the budget.
3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
4. The Appropriations Resolution places legal restrictions on expenditures at the fund, function, and departmental level. The appropriation for each fund, function, and department can be revised only by the Board of Supervisors. Supplemental appropriations in addition to the appropriated budget were necessary during the year. Supplemental appropriations may not be made without amending the budget.
5. The County legally adopted budgets for the following funds:

General, Special Revenue, Capital Projects, and School Board Funds

The County may adopt budgets for other funds, such as the Agency Funds, for use as a management control device over such funds.

6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
7. All appropriations lapse on June 30 for all County and School Board funds.

8. All budget data presented in the accompanying financial statements is the original budget as of June 30, 2006, as adopted, appropriated, and legally amended.
9. The expenditure budget is enacted through an annual appropriations ordinance. Appropriations are made at the departmental level for the primary government and the School Board. State law requires that if budget amendments exceed 1 percent of the original adopted budget, the Board of Supervisors may legally amend the budget only by following procedures used in the adoption of the original budget. The Board of Supervisors must approve all appropriations and transfers of appropriated amounts.

**E. Investments**

Investments are reported at fair value.

**F. Allowance for Uncollectible Accounts**

The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$398,069 at June 30, 2006 and is composed of the following:

General Fund - taxes receivable	\$ 398,069
---------------------------------	------------

**G. Capital Assets**

Capital outlays are recorded as expenditures of the Governmental Funds of the primary government and Component Unit School Board, and as assets in the government-wide financial statements to the extent the County and School Board's capitalization threshold of \$5,000 is met. The County and Component Unit School Board do not have any infrastructure in its capital assets since roads, streets, bridges, and similar assets within its boundaries are property of the Commonwealth of Virginia. Depreciation is recorded on general fixed assets on a government-wide basis using the straight-line method and the following estimated useful lives:

Buildings and improvements	10 - 50 years
Furniture and other equipment	3 - 25 years

All fixed assets are valued at historical cost or estimated historical cost, if actual cost was not available. Donated fixed assets are valued at their estimated fair market value on the date donated. The County and School Board do not capitalize historical treasures or works of art.

Maintenance, repairs, and minor equipment are charged to operations when incurred. Expenses that materially change capacities or extend useful lives are capitalized. Upon sale or retirement of land, buildings, and equipment, the cost and related accumulated depreciation, if applicable, are eliminated from the respective accounts and any resulting gain or loss is included in the results of operations.

#### **H. Compensated Absences**

The County accrues compensated absences (annual and sick leave benefits) when vested. The current portions of the Governmental Funds' compensated absences liabilities are recorded as other liabilities in the Governmental Funds. The current and noncurrent portions are recorded in the government-wide financial statements.

The Component Unit School Board accrues compensated absences (annual and sick leave benefits) when vested. The current portion of the compensated absences is recorded in the School Board Governmental Funds as accrued liabilities. The current and noncurrent portions are recorded in the School Board component unit government-wide financial statements.

#### **I. Use of Estimates**

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

#### **J. Long-Term Obligations**

The County reports long-term debt of Governmental Funds at face value in the general long-term debt account group. The face value of the debt is believed to approximate fair value. Certain other governmental fund obligations not expected to be financed with current available financial resources are also reported in the general long-term debt account group. Long-term debt and other obligations financed by Proprietary Funds are reported as liabilities in the appropriate funds.

## **2** **Cash and Investments**

### *Cash and Cash Equivalents*

For purposes of reporting cash flows for proprietary-type funds, cash and cash equivalents include cash on hand, money market funds, certificates of deposit, and investments with maturities of three months or less.

The County maintains a pool of cash and investments in which each fund participates on a dollar equivalent and daily transaction basis. Interest is distributed monthly based on average monthly balances. The majority of funds in the County's accounts are invested at all times.

### *Deposits*

All cash of the County and its Component Unit is maintained in accounts collateralized in accordance with the Virginia Security for Public Deposits Act, Section 2.2-4400 et seq. of the Code of Virginia or covered by federal depository insurance.

## Investments

### Interest Rate Risk

Through its investment policy, the County manages its exposure to fair value losses arising from increasing interest rates by limiting the duration of its investment portfolio. As of June 30, 2006, both investments held in the portfolio can be liquidated daily.

### Concentration of Credit Risk

The County places no limit on the amount the Treasurer may invest in any one issuer. More than 5 percent of the County's investments are in a repurchase agreement with a financial institution. This investment is 10 percent of the County's total cash and investments.

The following is a summary of cash and investments:

	<u>Carrying Amount</u>	<u>Market Value</u>
<b>Primary Government</b>		
Repurchase Agreements	\$ 971,764	\$ 971,764
Morgan Keegan and Company	<u>2,108,932</u>	<u>2,108,932</u>
Total Investments	3,080,696	<u>\$ 3,080,696</u>
Total Deposits	<u>6,603,854</u>	
Total Investments and Deposits - Primary Government	9,684,550	
Cash on Hand	<u>3,024</u>	
Total - Primary Government	<u>\$ 9,687,574</u>	
<b>Component Unit School Board</b>		
Total Investments	\$ -	<u>\$ -</u>
Total Deposits	<u>1,785,549</u>	
Total - School Board	<u>\$ 1,785,549</u>	

The following is a summary and reconciliation of the pooled cash and investments at June 30, 2006:

	<u>Governmental Activities</u>	<u>Business-Type Activities</u>	<u>Fiduciary Responsibilities</u>	<u>Total</u>
<b>Primary Government</b>				
Cash and cash equivalents	\$ 5,680,981	\$ 719,333	\$ -	\$ 6,400,314
Investments	3,080,696	-	-	3,080,696
Cash and investments with fiscal agents	<u>-</u>	<u>-</u>	<u>206,564</u>	<u>206,564</u>
Total Primary Government	8,761,677	719,333	206,564	9,687,574
<b>Component Unit School Board</b>				
Cash and cash equivalents	<u>1,785,549</u>	<u>-</u>	<u>-</u>	<u>1,785,549</u>
Grand Total	<u>\$ 10,547,226</u>	<u>\$ 719,333</u>	<u>\$ 206,564</u>	<u>\$ 11,473,123</u>

*Cash on Hand.* The above amounts include cash on hand of \$3,024.

### 3 Property Taxes

Real property taxes are assessed on property values as of January 1 and attach as an enforceable lien on property as of the date levied by the Board of Supervisors. Personal property taxes are assessed on a prorated basis for the period the property is located in the County and also attach as an enforceable lien on the property.

Real estate and personal property taxes are due December 5.

A ten percent penalty or \$10 minimum is levied on all taxes not collected on or before their due date. An interest charge of ten percent per annum is also levied on such taxes beginning on January 1.

Property taxes for calendar year 2005 were levied by the County Board of Supervisors in May 2005 on the assessed value listed as of January 1, 2005.

Property taxes for calendar year 2006 were levied by the County Board of Supervisors in May 2006 on the assessed value listed as of January 1, 2006.

Property taxes levied in the current and prior year have been recorded as receivables as of the date the County has the legal right to receive payments thereon. The receivables collected during the fiscal year and during the first 45 days of the succeeding fiscal year are recognized as revenues in the current fiscal year. Taxes receivable as of the end of the year (June 30) and not collected until the succeeding year are reported as deferred revenues.

## 4 Receivables

Receivables at June 30, 2006 consist of the following:

### Primary Government

#### Governmental Activities

## 9 Claims, Judgments, and Compensated Absences

In accordance with NCGA Statement 4 "Accounting and Financial Reporting Principles for Claims and Judgments and Compensated Absences," the County has accrued the liability arising from outstanding claims, judgments, and compensated absences. Each County employee earns vacation at the rate of a minimum of 1 day per month up to 1 ¾ days per month based on years of service. Sick leave is earned at the rate of 1 ¼ days per month. Sick pay is paid based on 25 percent of unused sick leave up to a maximum of \$2,500. Accumulated vacation up to thirty days is paid upon termination. The County has outstanding compensated absences totaling \$481,065 in the governmental activities. The balance in the business-type activities is \$47,801. The balance in the Component Unit School Board is \$302,753.

## 10 Deferred Revenue

### Primary Government

Property taxes	\$ 343,422
Prepaid taxes	<u>27,025</u>

Total Primary Government \$ 370,447

### Component Unit School Board

Small programs	\$ 2,226
Mentor teacher	13,238
Other school programs from donations	<u>169,176</u>

Total Component Unit School Board \$ 184,640

## 11 Contingent Liabilities (Including Federally Assisted Programs - Compliance Audits)

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the Federal Government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

At June 30, 2006, there were no matters of litigation involving the County which would materially affect the County's financial position should any court decision or pending matter not be favorable to the County.

## 12 Defined Benefit Pension Plan

### A. Plan Description

All full-time, salaried permanent employees of participating employers must participate in the VRS. Benefits vest after five years of service. Employees are eligible for an unreduced retirement benefit at age 65 with 5 years of service (age 60 for participating local law enforcement officers, firefighters, and sheriffs) or at age 50 with at least 30 years of service if elected by the employer (age 50 with at least 25 years of service for participating local law enforcement officers, firefighters, and sheriffs) payable monthly for life in an amount equal to 1.7 percent of their average final compensation (AFC) for each year of credited service. Benefits are actuarially reduced for retirees who retire prior to becoming eligible for full retirement benefits. In addition, retirees qualify for annual cost-of-living increases limited to 5 percent per year beginning in their second year of retirement. AFC is defined as the highest consecutive 36 months of reported compensation. Participating local law enforcement officers, firefighters, and sheriffs may receive a monthly benefit supplement if they retire prior to age 65. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of that report may be downloaded from their website at <http://www.varetire.org/Pdf/2005AnnuRept.pdf> or obtained by writing to the System at P. O. Box 2500, Richmond, Virginia 23218-2500.

**B. Funding Policy**

Plan members are required by Title 51.1 of the Code of Virginia (1950), as amended, to contribute 5 percent of their annual salary to the VRS. The employer may assume this 5 percent member contribution. In addition, the County is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the Code of Virginia and approved by the VRS Board of Trustees. The County's contribution rate for the fiscal year ended 2006 was 3.0 percent of annual covered payroll. The Component Unit School Board's contribution rate for non-professional employees for the fiscal year ended 2006 was .75 percent of annual covered payroll. The Component Unit School Board contributed \$838,246 to the teacher cost-sharing pool at a rate of 6.62 percent.

**C. Annual Pension Cost**

For fiscal year 2006, the County's annual pension cost of \$157,246 and \$7,866 for the County and the County School Board non-professionals, respectively, was equal to the County's required and actual contributions. The required contribution was determined as part of the June 30, 2003 actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions included (a) 8 percent investment rate of return, (b) projected salary increases ranging from 4.00 percent to 7.00 percent per year, and (c) 3.00 percent per year cost-of-living adjustments. Both (a) and (b) included an inflation component of 3.00 percent. The actuarial value of the County's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period.

**REQUIRED SUPPLEMENTARY INFORMATION**

Schedule of Funding Progress for County

Actuarial Valuation Date	(a) Actuarial Value of Assets	(b) Actuarial Accrued Liability (AAL)	(b-a) Unfunded Actuarial Liability (UAAL)	(a/b) Funded Ratio	(c) Covered Payroll	((b-a)/c) UAAL as a Percentage of Covered Payroll

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Assets

At June 30, 2006

Total fund balances for Governmental Funds	\$ 27,707
Total net assets reported for governmental activities in the Statement of Net Assets is different because	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. Those assets consist of:	
Land	988,200
Buildings and improvements, net of depreciation	741,567
Furniture, equipment, and vehicles, net of depreciation	<u>5,395,496</u>
Total Capital Assets	7,125,263
Liabilities applicable to the County's governmental activities are not due and payable in the current period and, accordingly, are not reported as fund liabilities.	
Balances of long-term liabilities affecting net assets are as follows:	
Compensated absences	<u>(302,753)</u>
Total Net Assets of Governmental Activities	<u>\$ 6,850,217</u>

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances  
of Governmental Funds to the Statement of Activities

Year Ended June 30, 2006

Net change in fund balances	\$	6,134
Liabilities applicable to the County's governmental activities are not due and payable in the current period and, accordingly, are not reported as fund liabilities.		
Balances of long-term liabilities affecting net assets are as follows:		
Compensated absences		(14,308)
Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation was exceeded by capital outlays in the current period.		
		<u>70,627</u>
Change in net assets of governmental activities	\$	<u>62,453</u>

# COMPLIANCE SECTION

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND  
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF  
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH  
GOVERNMENT AUDITING STANDARDS**

Honorable Members of the  
Board of Supervisors  
County of Southampton, Virginia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Southampton, Virginia, as of and for the year ended June 30, 2006, which collectively comprise the County of Southampton, Virginia's basic financial statements and have issued our report thereon dated November 30, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

**Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the County of Southampton, Virginia's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the County of Southampton, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the County of Southampton, Virginia in a separate letter dated November 30, 2006.

This report is intended solely for the information and use of the audit committee, management, Board of Supervisors, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS  
APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL  
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Honorable Members of the  
Board of Supervisors  
County of Southampton, Virginia

**Compliance**

We have audited the compliance of the County of Southampton, Virginia with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2006. The County of Southampton, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the County of Southampton, Virginia's management. Our responsibility is to express an opinion on the County of Southampton, Virginia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*; and *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards, OMB Circular A-133, and specifications require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Southampton, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the County of Southampton, Virginia's compliance with those requirements.

In our opinion, the County of Southampton, Virginia complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2006.

**Internal Control Over Compliance**

The management of the County of Southampton, Virginia, is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County of Southampton, Virginia's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the audit committee, management, Board of Supervisors, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
