

**13. PROJECT STATUS REPORT
WATER RECLAMATION FACILITY (PPEA PROJECT)**

Messrs. Jim Christian, P.E. (Timmons Group) and David Ervin (MidEastern Builders) will attend your meeting to present a current project status report.

Those of you who were able to attend the cookout on May 28 got a first-hand look at construction at the new Water Reclamation Facility. This presentation is intended to provide a bit of a "virtual tour" of the project for those who were unable to attend and for the general public.

NO MOTION REQUIRED
