

**EMERGENCY PROCUREMENT NOTICE**  
**Southampton County**  
**October 22, 2020**  
**Water Storage Tank Replacement**  
**Agri-Civic Center/Fairgrounds**

Notice is hereby given that Southampton County is awarding contract(s) for:

- a) Emergency engineering services to Commonwealth Engineering Group; and
- b) Emergency construction services to Purvis Well Service, LLC

to develop necessary plans and perform all work associated with replacement of the 5,000 gallon hydropneumatic tank at the Southampton County Fairgrounds and Agri-Civic Center.

These contracts are awarded pursuant to § 2.2-4303 (F), Code of Virginia, 1950 as amended without competitive sealed bidding or competitive negotiation. The basis of the emergency procurement stems from a leak that has recently developed in the existing pressurized vessel. This situation poses an immediate danger to the health, welfare and safety of patrons of the facility.

Commonwealth Engineering Group and Purvis Well Service, LLC were selected because of their extensive experience with small community water systems, their highly-qualified personnel and because they have sufficient resources to mobilize and perform the work quickly.

Michael W. Johnson, Clerk  
Southampton County Board of Supervisors
