A. NOTIFICATION REGARDING FISCAL STRESS

In response to the financial crisis in the City of Petersburg last year, the 2017 Virginia Acts of Assembly directed the Auditor of Public Accounts (APA) to establish a prioritized early warning system to identify possible local fiscal distress within localities across Virginia on an annual basis. The review focuses on information related to budget processes, debt, borrowing, expenses and payables, revenues and receivables, staffing, and any other external variables contributing to a locality's financial position.

The result of this review is that each locality is given a score, called the Financial Assessment Model (or FAM) score. For fiscal year 2016, those localities that receive a FAM score of less than or equal to the 16% threshold set by the APA were notified and asked to decide whether to allow the APA to perform further review.

Southampton County's FAM score for FY 2016 did not fall below the APA's threshold and no additional information or follow-up is required at this time. A copy of the APA notice is attached.

B. VASAP ANNUAL REPORT

Since 2008, Major Gene Drewery has represented Southampton County on the Southeastern Virginia Alcohol Safety Action Program (VASAP) Policy Board. He currently serves as Chairman and recently forwarded me the organization's annual report and asked that I share it with you. A copy is attached for your information.

C. UPDATE ON SUSSEX COUNTY LANDFILL

At last month’s meeting, Supervisor Phillips asked me to provide an updated report on odor problems plaguing the environs of the Atlantic Waste Disposal landfill in Sussex County.

I checked with Jason Miller, VDEQ's Land Protection Program Manager at their Piedmont Regional Office in Richmond. He indicates that Waste Management has satisfactorily completed installations of the new synthetic cap and leachate underdrain system for Phase IV. Mr. Miller noted that while there’s still a chance for occasional odor, the number of complaints has dropped dramatically since this work was completed.

I’ve attached a copy of a presentation that Waste Management provided to the Prince George County Board of Supervisors in February which provides a good overview of their mitigation efforts to date.
D. **DSS NEWSLETTER**

Attached for your reference, please find a copy of the latest newsletter from the Southampton County Department of Social Services.

E. **NOTICES**

1) **Environmental Notices** - attached for your reference, please find copies of the following environmental notices:

   a. From the Virginia Department of Health, Office of Drinking Water - copied correspondence confirming reissuance of the waterworks permit to Hampton Parkway, LLC for the Fieldcrest Manufactured Home Park water system near Adams Grove.
   
   b. From the Virginia Department of Health, Office of Drinking Water - copied correspondence to Mrs. Bessie Smith regarding approval of a proposed new well site for the Kingsdale-Artis community water system (NOTE: the Kingsdale-Artis system was interconnected with the Kingsdale-Moseley system on September 6, 2017).
   
   c. From the Virginia Department of Health, a copy of the Waterworks Construction Permit recently issued to the Town of Ivor which will add another well, hypochlorination system and appurtenances.
   
   d. From the Virginia Department of Health, Office of Drinking Water - copied correspondence to Julien Johnson related to Level 1 Assessment for the Drewryville water system (NOTE: the Assessment was completed and returned to VDH on September 18, 2017).

2) **Foreclosure Notices** – Section 15.2-979 of the Code of Virginia was amended in 2013 requiring any Trustee or Substitute Trustee that conducts a sale under a Deed of Trust to provide notice to the Chief Administrative Officer. Attached for your reference, please find copies of several of these notices.

3) **SCC Notices** - Case No. PUR-2017- 00095 - Order for Notice and Hearing regarding the Application of Columbia Gas of Virginia, Inc. for approval to amend its “SAVE” plan.

F. **CORRESPONDENCE**

Please find copies attached of correspondence that may be of interest.

G. **ARTICLES OF INTEREST**

Please find copies attached of recent articles that may be of interest to you.

Drewryville, VA 23844

Michael Johnson, County Administrator
County of Southampton
P.O. Box 400
Courtland, VA 23837

Dear Mr. Jones and Mr. Johnson:

The 2017 Virginia Acts of Assembly (Chapter 836, Part 4-8.03) directs the Auditor of Public Accounts to establish a prioritized early warning system to identify possible local fiscal distress within localities across Virginia on an annual basis. Our office has developed criteria for a preliminary determination of fiscal distress based on the analysis of audited financial statement data and other qualitative factors. The result of this analysis is that each locality is given a score, called the Financial Assessment Model (or FAM) score. For those localities that receive a FAM score of 16% or less, we will notify the local governing body and chief executive officer of our preliminary determination. After this notification, the locality must decide whether to allow our office to perform further review. The review will focus on information related to budget processes, debt, borrowing, expenses and payables, revenues and receivables, staffing, and any other external variables contributing to a locality's financial position, to further determine the extent of potential fiscal distress. The objective of our additional review is to obtain an understanding of how the locality is responding to potential fiscal stress and policy or plans it has in place to move forward and improve.

After completion of our follow-up and review with the locality, the Auditor of Public Accounts will evaluate and make a determination of whether or not the locality may need further assistance from the state. The Auditor of Public Accounts will then formally notify the Governor, chairmen of the money committees, and the locality's governing body, in writing, concerning the specific issues or actions that would need to be addressed by state assistance or intervention. At that point, the process is administered by the Governor and chairmen of the money committees to develop a plan for state assistance and determine what that assistance might entail. Should
the locality decline any further follow-up and review from the Auditor of Public Accounts, our office will notify the Governor and chairmen of the money committees accordingly.

Your locality’s FAM score for Fiscal Year 2016 did not meet our threshold. No further information or follow up is required for your locality at this time. However, we are attaching an assessment questionnaire for your use in the event that you would like to perform a self-assessment.

For more detailed information about the model and the financial ratios that we calculated for each locality, please see the attached Fiscal Distress Model Fact Sheet and the attached copy of the data and the results of the calculated ratio analysis for your locality.

Sincerely,

Martha S. Mavredes, CPA
Auditor of Public Accounts

**Director’s Note**

The Southeastern Virginia Alcohol Safety Action Program is a public body organized pursuant to an agreement for joint exercise of powers entered into among the cities of Portsmouth, Chesapeake, Suffolk and Franklin; the counties of Southampton, Isle of Wight; and the town of Smithfield in the state of Virginia.

We exist to assist offenders enrolled in this program via educational and probationary services and provide viable information to the courts to enhance judicial processing of cases. By taking a proactive approach, we educate the community on the affects impaired/distracted driving may have on the individual and those directly or indirectly involved. We gather and record data which gives an indicator of recidivism, program success and overall decline or increase of driving incidences.

Compared to last year, the overall referral numbers have slightly declined. Agencies with which we partner continue to remain proactive. We have established and maintain a spirit of excellence as we consistently provide exceptional professional services to the jurisdictions in which are assigned. As part of our mission to improve roadway safety, we seek the aid and assistance from our local law enforcement agencies, our courts, our Policy Board, other ASAPs and the Commission on VASAP.

Between July 1st of 2016 and June 30th of 2017, this office serviced, in some capacity, over two thousand people. Whether educating the public or processing cases, our work is worth the effort if it saves a life. *At no cost to tax payers*, this office has assisted hundreds of offenders referred by the courts and DMV. Quality education, treatment and monitoring are at the core of our operation but are not all inclusive of the myriad of other services we provide. What makes us one of the best DUI agencies in this country is our commitment to making a difference.

In July of 2016, Virginia became one of few states to enact a law to require a camera with each ignition interlock installation for all convicted drivers under the influence of alcohol. As of July of this year there were over 7,690 ignition interlock devices in use.

Below is a brief snapshot of the most recent DMV Virginia Traffic Safety report:

SOUTHEASTERN VIRGINIA ASAP

Accomplishments and Expectations

In various ways, Southeastern Virginia ASAP is active in the community. We maintain a presence and influence through presentations and events targeted toward highway safety. Below are some of the activities of which we have participated.

Our PI & E involvements included:

- Bryant & Stratton College (Internship) October 2016
- Bryant & Stratton College (Internship) October 2016
- Bryant & Stratton College (Internship) November 2016
- Drive Safe Hampton Roads (Campaign) January 2017
- Bar Association January 2017
- Community event April 2017
- Drive Safe Hampton Roads May 2017
- Mother Against Drunk Drivers (Awards) August 2017
- Local Cities, Towns and Counties (Annual Rprt) September 2017

Our goal is to educate as many as possible on the impact drunk, drugged and distracted driving has on individuals, communities and our state. As always, we continue to strive toward meeting our desired goals, objectives and the mission of the Southeastern Virginia Alcohol Safety Action Program.

Subject: RE: Atlantic Waste LF Update - March 2017

Thanks, Jason. No issues here that I’m aware of. One of our Board members just asked me to provide the Board with an update. Appreciate your prompt reply.

Best regards,
Mike

To: Mike Johnson
Subject: RE: Atlantic Waste LF Update - March 2017

Hey Mr. Johnson, hope you are doing well. I had not sent out another update since March. WM completed all the activities presented below within the June 30th timeline. Since that time we have seen a significant drop in the number of complaints. WM continues to manage the landfill gas collection system and conducts maintenance on the capped areas; however, since the reaction in the capped area is ongoing, there still remains the chance for occasional odors. Are you having any issues in Southampton?

Subject: Atlantic Waste LF Update - March 2017

You are receiving this email as you have previously inquired with the Virginia Department of Environmental Quality (DEQ) about the status of the ongoing odor issues at the Atlantic Waste Disposal Landfill, operated by Waste Management (WM), in
Sussex County. On Tuesday February 28, WM staff provided an update to the Prince George County Board of Supervisors on activities related to addressing the odors from the landfill. Additionally, a representative from the DEQ also provided comments and answered questions from the Board members. WM staff discussed actions to be taken and committed to completing the activities by June 30, 2017. Prince George County has posted a video of the presentation from the February 28th Board of Supervisors Meeting to their website. The following projected timeline has been provided to DEQ by WM:

**Phase IV Capping Projected Timeline**
- March 6th – Leachate underdrain piping began for Phase 4B
- March 6th – Anchor trench/Liner began for Phase 4A  (7 Acres, area of most concentrated odors)
- March 20th – Liner for Phase 4A substantially complete
- March 24th - Leachate underdrain piping is complete for Phase 4B/2A
- March 27th – Earthwork starts for Phase 4B/2A (15 Acres)
- April 3rd – Liner starts for Phase 4B
- May 1st – Liner starts for Phase 4C (16 Acres)
- May 30th – Liner is substantially complete for Phase 4B/2A
- June 30th – Liner is substantially complete for Phase 4C

The total acreage for this phase of the capping project consists of ~38 acres and is occurring in the final area that has been determined to be the source of the continued odors.

Current Working Theory ("The What")
Atlantic Waste Disposal
Odor Mitigation Timeline - 2015 through 2016

2015
- **January 2015**
  - Acquire gas rights on-site
  - Purchase two (2) portable, waterless deodorizer system
- **February 2015**
  - Completion of 30-acre temporary cap design
  - Construction of additional bio-filters
- **March 2015 through December 2015**
  - Installation of 30-acre temporary cap
  - Expansion of gas extraction system
  - Upgraded blower and motor on temporary flare
  - Purchase 5 portable deodorizer systems
  - Odor neutralizing system expansion #3
    - Add third pump
    - Add approximately 2,000 feet of hose (133 nozzles)
  - Installation of additional flare
  - Design of additional 60+-acres temporary synthetic cap

2016
- **January 2016 through November 2016**
  - Install 60+-acre temporary synthetic cap (Phase I and Phase II)
  - Install additional 30+-acre clay cap (Phase IV)
  - Gas system expansion – 102 gas collection wells (total of 395 devices)
  - Installed two (2) new permanent flares
Atlantic Waste Disposal
Odor Mitigation Timeline - 2017

2017
• January through December 2017
  o Install approximate 38-acre Phase IV temporary synthetic cap (top of landfill)
  o Install approximate 30-acre Phase III temporary synthetic cap
  o Gas system expansion - 26 new gas collection wells (total of 421 devices)
  o Install cap on other areas as needed
  o Begin operation of on-site wastewater treatment plant
Atlantic Waste Disposal
What’s Being Done to Understand and Prevent Reoccurrence?

Waste Management is a part of a joint working group through the Environmental Research and Education Foundation (EREF) to solve operational issues and gain a working knowledge of how to remediate, prevent and control these types of reactions in landfills.

Questions-Discussion
Last year we were able to assist 305 children with school supplies and hygiene items to begin the school year. This number is a slight increase from our children assisted in the previous school year.

Without your help, we would not be able to assist the children in getting ready for a new year of education and dreams for the future.

As many of you already know, this is one of many projects that receive no government funding.

If you would like to support our Back to School Project, please contact 653-3121.

For a list of generic supplies needed, see page 2.

If you would like to support our Back to School Project, please contact 653-3121.

For a list of generic supplies needed, see page 2.

We will be working on another yarn project for the Winter months.

If you would like to knit or crochet hats for people in our community, please let us know.

If you are not a crafty person but would like to help, you may make a financial donation to help purchase yarn.

Deadline for completed adult and children’s hats is November 15.

We would love to distribute the hats beginning with our Thanksgiving distribution.

Please call 653-3121 if interested.

ACTIVE SHOOTER REFERENCE GUIDE

When an Active Shooter is in your vicinity, you have three options:

1) RUN
- Have an escape route and plan in mind
- Leave your belongings behind
- Evacuate regardless of whether others follow
- Help others escape, if possible
- Do not attempt to move the wounded
- Prevent others from entering area where shooter may be
- Keep your hands visible
- Call 911 when you are safe

2) HIDE
- Hide in an area out of shooter’s view
- Lock door or block entry to your hiding place
- Silence cell phone (including vibrate mode) and remain quiet

3) FIGHT
- Fight as a last resort only when your life is in imminent danger
- Attempt to incapacitate the shooter
- Act with as much physical aggression as possible
- Impose weapons or throw items at the shooter
- Commit to your actions, . . . your life depends on it

MOSQUITO BITE PREVENTION

Not all mosquitoes are the same. Different mosquitoes spread different viruses and bite at different times of the day.

<table>
<thead>
<tr>
<th>Type of Mosquito</th>
<th>Viruses spread</th>
<th>Biting habits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Aedes aegypti</td>
<td>Chikungunya</td>
<td>Primarily daytime, but can also bite at night</td>
</tr>
<tr>
<td>Aedes albopictus</td>
<td>Dengue, Zika</td>
<td></td>
</tr>
<tr>
<td>Culex species</td>
<td>West Nile</td>
<td>Evening to morning</td>
</tr>
</tbody>
</table>

Protect yourself and your family from mosquito bites Use insect repellent

Use an Environmental Protection Agency (EPA)-registered insect repellent with one of the following active ingredients. When used as directed, EPA-registered insect repellents are proven safe and effective, even for pregnant and breastfeeding women.

<table>
<thead>
<tr>
<th>Active ingredient</th>

**HURRICANE/DISASTER PREPAREDNESS**

Weather is something that we have no control over and should take very seriously during Hurricane Season.

Don’t wait until the threat is severe to make your family an emergency kit and establish your evacuation plan.

Have an evacuation drill so that everyone in the family is aware of what to do and where to go.

Check on the elderly in your neighborhood and make sure they have a plan.

Prepare an Emergency Kit before the need arises.

In today’s world, weather is not the only type of disaster we have to be aware of.

Plan ahead and protect your family.

For other lists and emergency preparedness information, go to [www.ready.gov](http://www.ready.gov).

**VOLUNTEER APPRECIATION**

What a wonderful looking group. This group and many others who are not present help to make up our wonderful Volunteer Family.

Each person has a unique gift that is shared through the projects they participate in. Things that you think are "nothing", are big deals to those of us who cannot do what you do or have the personality you have.

Come join our Volunteer Family.

For more information call 653-3121.

**MOBILE FOOD DISTRIBUTION**

The Foodbank of SEVA continues to partner with Southampton County DSS and its volunteers to distribute food in Southampton County to those in need.

An average of 8,000 lbs. of food is distributed to an average of 225 families each month through this partnership.

Distribution begins at 9:30 and ends around 11:00.

**2017 Monthly Mobile Distribution Dates**

- **Aug. 22** – Community Fellowship Church of Deliverance, 19315 So. Pkwy., Capron
- **Sept. 26** – Courtland Baptist, 22264 Main St., Courtland
- **October 24** – Newsoms Methodist, 29193 S. Main St., Newsoms
- **November 28** – Sedley Baptist, 17494 Johnson Mill Rd., Sedley
- **December 19** – Thomas Memorial Bap., 23008 Drewry Rd., Drewryville

Distribution through this program is only on the day scheduled. This food is brought in from the Food Bank in Norfolk. It is not housed at Social Services.

We want to say a special "Thank You" to all of our devoted volunteers who help make the monthly Mobile Food Distribution a success.

You truly are a wonderful group of friends and "family".
MORE OPPORTUNITIES

DONATIONS NEEDED

Our Special Funds in Need at This Time!

- Thanksgiving
- Christmas
- School Supplies
- Emergency Food Pantry
- Wheelchair Ramps

Your monetary gift can help sustain these projects. These are the funds that need help at the moment.

Checks may be made out to Southampton Social Services. You can designate which fund you would like to contribute to.

To discuss any of these programs, call 653-3121.

We are considering a couple of options for a fundraiser, Brunswick Stew or Chili. If you would like to serve on a committee to make plans for this project, please let us know. You may have another idea instead of Stew or Chili. We want to hear from you.

We need something that would render enough funds to support more than one project area.

Call us at 653-3121.

UPCOMING CRAFT SHOW FUNDRAISERS

CALLING ALL COOKS

Social Services will be participating in a couple of craft shows this year as fundraising opportunities for our special projects.

The dates will be October 7 at Sebrell Community Building, October 21 at the American Legion, and November 11 at the Fairgrounds (Sojourners show).

We will be serving lunch from the kitchen and will also have a baked goods table at each event.

At Thanksgiving we focus on helping our senior and disabled adults with food bags. Families with children are also assisted, but our focus is to first make sure the seniors and disabled are remembered.

Monetary as well as food donations are needed to make this project a success. If you would like to help with the Thanksgiving Project, please call 653-3121. We would like any donations in by November 15.

Christmas may be the only time some of our children receive a new toy or article of clothing. We try to help children ages 0—12 through this project. You may sponsor a child, give generic items or monetary donations to make this project a success. Put up an angel tree at your church or work, and get the children’s names from us.

If you would like to help with the Christmas Project, please call 653-3121.

If you have any ideas of how we can partner to meet the needs in our community, please give us a call and let’s talk about it. No idea is too small to explore. We welcome any suggestions you may have. Please call 653-3121 with your ideas. Looking forward to a wonderful partnership!

Dear Mr. Senger

Enclosed please find Waterworks Operation Permit No. 3175800 with Operation Permit Conditions dated August 24, 2017 issued by the Commonwealth of Virginia Department of Health, Office of Drinking Water. This permit is your authorization from the State Health Commissioner to operate the subject waterworks located in Southampton County in accordance with the Waterworks Regulations. This permit is not transferable. This permit does not suspend, minimize, or otherwise alter this owner's obligation to comply with applicable federal, state, or local laws and regulations or permits.

You will note that the permit indicates that this waterworks has a permitted capacity of 42 existing manufactured home connections. This limit is based on the existing system usage and shall not be exceeded.

As provided by Rule 2A:2 of the Supreme Court of Virginia, you have thirty (30) days from the date you actually received this permit or the date it was mailed to you, whichever occurred first, within which to appeal this permit by filing a notice of appeal in accordance with the Rules of the Supreme Court of Virginia with the State Health Commissioner. In the event that this permit is served on you by mail, three days are added to that period.

We look forward to your continued cooperation in the maintenance and operation of this waterworks.

Sincerely,

Dixon W. Tucker, PE
District Engineer

DWT/kcb

pc: Southampton County Health Department
   Mr. Michael Johnson, County Administrator, Southampton County
   Mr. Lee Copeland, Building Official, Southampton County
   VDH – ODW, Central Office
Ms. Bessie A. Smith  
P. O. Box 651  
Franklin, Virginia 23851

Dear Ms. Smith:

This letter provides the results of our August 28, 2017 inspection of the proposed well site to serve Kingsdale – Artis Waterworks. In accordance with the Waterworks Regulations, the following well site is tentatively approved by the Virginia Department of Health Office of Drinking Water (VDH-ODW) for the construction of a well to be utilized as a public drinking water supply:

Well Number 2 as further described herein

The approval of the well site listed above expires 12 months from the date of this letter, and is subject to the conditions described in the attached Well Site Approval Conditions Form. This approval is limited to well drilling, casing, grouting, and testing of the well. If drilling of any well listed above has not commenced by the expiration date, a re-inspection of the well site is required.

Upon receipt of the required documentation and after plans and specifications have been approved, a Construction Permit will be issued by the State Health Commissioner in accordance with the Waterworks Regulations. Construction of the waterworks facilities shall not be started until the construction permit has been issued.

Waterworks wells must be constructed by a licensed Water Well Systems Provider in Virginia. You may confirm licensure status by contacting the Virginia Department of Professional and Occupational Regulation (DPOR) or using the search tool on DPOR’s website at the following address: http://www.dpor.virginia.gov/LicenseLookup/.
Upon request, an electronic version of the Preliminary Source Water Assessment information may be emailed to you. If you or your consultant has GIS software, we can also provide a geodatabase to facilitate further work with the data. To learn more about our Source Water Assessment and Protection Programs, as well as eligibility for assistance and funding opportunities to implement source water protection measures, we encourage you to visit our website at the following address:

Please contact me if you have further questions or need to coordinate a preliminary engineering conference to discuss water supply.

Sincerely,

Dixon W. Tucker, PE
District Engineer

WATERWORKS CONSTRUCTION PERMIT

Permit No.: 303917  Effective Date: August 4, 2017  Expiration Date: August 4, 2022

Issued to:  
Town of Ivor  
c/o Ms. Sandra Vick, Mayor  
8430 Bell Avenue  
Ivor, Virginia 23866

ATTN: Ms. Vick:

Plans and specifications for the construction of additions to the Town of Ivor community waterworks located in Southampton County, prepared by B & B Consultants, Inc., have been reviewed by this Office. The plans titled “Well Addition No. 5 Facility, Phase II, (DEQ 187-00236), Project (WSL-009-16), Town of Ivor, Virginia”, are dated April 18, 2017 and include sheets T0.00, C1.01, C1.02, M1.01, S1.01, E1.01, E1.02, E1.03, E1.04, and H1.05. The specifications titled “Contract Documents for Town of Ivor Phase II, Well Addition No. 5 Facility, (DEQ187-00236), Project (WSL-009-16), Ivor, Virginia” are dated April 2017.

The project consists of the addition of a well, a hypochlorination system, and appurtenances.

The plans and specification are technically adequate and are approved by this Office, in accordance with 12VAC5-590 of the Commonwealth of Virginia Waterworks Regulations. A copy of these documents is on file in the Southeast Virginia Field Office.

This approval does not suspend, minimize, or otherwise alter the waterworks obligation to comply with federal, state, or local laws and regulations or permits.
This Waterworks Construction Permit is issued in accordance with Title 32.1 of the *Code of Virginia*, and 12VAC5-590 *et seq.* of the *Waterworks Regulations*. This is your authorization from the State Health Commissioner to construct additions to the subject waterworks in accordance with the approved documents. Any deviations from the approved documents affecting capacity, hydraulic conditions, operating units, the functioning of the treatment processes, or the water quality delivered, must be approved by this Office before any such changes are made. Revised plans and specifications shall be submitted to the Southeast Virginia Field Office in time to permit review and approval before construction.

Upon completion of construction, the owner shall submit a statement signed by a professional engineer licensed in Virginia certifying that the work was completed in accordance with the approved documents.

Upon receipt of this statement, satisfactory results of bacteriological analysis, and final inspection by an Office representative, the State Health Commissioner will amend your current waterworks operation permit in accordance with the *Regulations*.

The Department of Environmental Quality has issued a Groundwater Withdrawal Permit for this groundwater source.

If we can be of additional assistance, please contact Dixon W. Tucker, PE, District Engineer in our Southeast Virginia field office at (757) 683-2000 extension 115.

Sincerely,

Susan E. Douglas, PE  
Director of Technical Services

AUG 2 3 2017
NOTICE of LEVEL 1 ASSESSMENT REQUIREMENT

SUBJECT: SOUTHAMPTON COUNTY
Water - Drewryville
PWSID No. 3175300

Mr. Julien Johnson
Director
Southampton Public Utilities
24283 Old Bridge Road
Courtland, VA 23837

Dear Mr. Johnson:

This notice is to advise you of requirements per 12VAC5-590-392. Coliform treatment technique triggers and assessment requirements of the Waterworks Regulations. The subject waterworks generated a requirement to perform a Level 1 assessment and submit a completed Level 1 assessment form to this Office. A Level 1 assessment is required whenever a waterworks has two or more total coliform positive samples during a monitoring period; or, there is a failure to collect every required repeat sample after any total coliform positive sample result.

Based on our records for the monitoring period, the subject waterworks had two (2) total coliform-positive samples. The total coliform-positive samples were collected at 12064 Old Belfield Road on August 7, 2017 and 12159 Old Belfield Road on August 14, 2017.

Required Actions

The following actions are required:
- Perform a Level 1 assessment using the enclosed form.
- Submit the completed Level 1 assessment form to this Office within 30 days from the date of this letter.

Additional Information

A Level 1 assessment evaluates conditions throughout the waterworks to determine possible causes for the total coliform positive sample results. Sanitary defects (conditions that could provide a pathway of entry for microbial contamination into the distribution system) identified by the assessment are to be corrected and noted in the assessment. A schedule of corrective action(s) must be included in the assessment for defects not corrected by the above submittal due date.
This Office will review the assessment for accuracy and completeness plus verify completion of any scheduled actions to correct sanitary defects. Notify this Office, in writing, within one business day upon completion of each corrective action, if a corrective action is listed in a submitted schedule.

Should you need any assistance in completing the Level I assessment form, please contact me at 757-683-2000, ext. 104.

Sincerely,

Holly Baumstark
Environmental Health Specialist, Sr.

For approval to implement a 2018 SAVE Plan
Infrastructure Reliability and Replacement
Adjustment in accordance with Section 20
of its General Terms and Conditions
Case No. PUR-2017-00095

Dear Sir or Madam:

Attached is a copy of the September 1, 2017 Order for Notice and Comment ("Order") in the above referenced proceeding before the Virginia State Corporation Commission ("Commission") as required by Ordering Paragraph 3 of the Order. Please take notice of its contents.

Sincerely,

James S. Copenhaver

Enclosure
ORDER FOR NOTICE AND COMMENT

On August 15, 2017, Columbia Gas of Virginia, Inc. ("CVA" or "Company"), filed with the State Corporation Commission ("Commission") an application for approval to amend Phase 2 of its SAVE Plan pursuant to the Steps to Advance Virginia's Energy Plan (SAVE) Act, Chapter 26 of Title 56 ("SAVE Act") of the Code of Virginia ("Code"),\(^1\) and for approval to implement a 2018 Infrastructure Reliability and Replacement Adjustment ("IRRA") ("Application").

In its Application, the Company requests approval to increase the total five-year (2016-2020) cap on authorized Phase 2 SAVE Plan expenditures from $150 million to $173.8 million and to maintain the previously authorized 5% tolerance band.\(^2\) According to the Company, its investments in the replacement of large-scale SAVE eligible projects limit the

\(^1\) Code § 56-603 et seq.

funds available for smaller projects, and the Company anticipates that it will exceed the current five-year cap of $150 million if the Company maintains the current rate of SAVE investments.\(^3\) CVA is not proposing to modify the operational aspects of its current SAVE Plan or the authorized categories of SAVE eligible infrastructure, nor is the Company proposing any other substantive changes to the terms and conditions of the SAVE Plan.\(^4\)

Section 56-604 A of the SAVE Act allows CVA to recover SAVE eligible infrastructure costs (as defined in Code § 56-603) through a SAVE Rider, which is defined in the Company's tariff as the IRRA. Accordingly, CVA requests authority to implement a 2018 IRRA in accordance with Section 20 of its General Terms and Conditions, as contemplated in the Commission's November 28, 2011 Order Approving SAVE Plan and Rider in Case No. PUE-2011-00049,\(^5\) as modified by the July 3, 2013 Order Approving Amended SAVE Plan in Case No. PUE-2013-00015\(^6\) and extended by the 2015 SAVE Order. The 2018 IRRA comprises a 2016 Infrastructure Replacement Reconciliation Rate ("IRRR") and a 2018 Infrastructure Replacement Current Rate ("IRCR") and is billed as a combined fixed charge each month.\(^7\) The 2016 IRRR is designed to true-up the IRCR in effect for calendar year 2016 to the actual SAVE

\(^3\) Application at 4.

\(^4\) Id. In addition, the Company is not proposing a change to the annual spending cap of $30 million and the associated 25% annual tolerance band. See Pre-filed Direct Testimony of Robert E. Horner at 5-6.

\(^7\) Application at 3.
costs experienced during that time period, and the 2018 IRCR is designed to recover projected costs associated with SAVE-eligible infrastructure replacements during calendar year 2018.\(^8\)

In its Application, the Company seeks approval of the following: (1) the Company's 2016 IRRR credit in the amount of $1,263,556;\(^9\) (2) the Company's 2018 IRCR in the amount of $5,740,130;\(^10\) and (3) the filing of rate sheets implementing the 2018 IRCR and 2016 IRRR. The 2018 IRCR and the 2016 IRRR result in an IRRA total net charge to customers of $4,476,574 for 2018.\(^11\) The Company requests that the 2018 IRRA be effective with the first billing unit of January 2018 through the last billing unit of December 2018.\(^12\) The Company's 2018 IRRA proposed monthly rates by rate schedule are as follows: Residential Sales Service / Residential Transportation Service, $1.14; Small General Service 1 / Small General Transportation Service 1, $1.24; Small General Service 2 / Small General Transportation Service 2, $3.30; Small General Service 3 / Small General Transportation Service 3, $10.17; Large General Service 1 / Transportation Service 1, $96.59; and Large General Service 2 / Transportation Service 2, $463.14.\(^13\)

NOW THE COMMISSION, having considered this matter, is of the opinion and finds that the Company's Application should be docketed; that CVA should provide public notice of its Application; that interested persons should be afforded an opportunity to file comments or

request a hearing on the Company's Application; and that the Staff of the Commission ("Staff")
should investigate the Application and file a report containing the Staff's findings and
recommendations ("Staff Report").

Accordingly, IT IS ORDERED THAT:

(1) CVA's Application is docketed as Case No. PUR-2017-00095.

(2) On or before September 29, 2017, the Company shall cause a copy of the following
notice to be published as display advertising (not classified) on one (1) occasion in newspapers
of general circulation throughout the Company's service territory within the Commonwealth of
Virginia:

NOTICE TO THE PUBLIC OF AN APPLICATION
BY COLUMBIA GAS OF VIRGINIA, INC.,
FOR APPROVAL TO AMEND A SAVE PLAN PURSUANT TO
VIRGINIA CODE § 56-604 AND TO IMPLEMENT A 2018 SAVE
PLAN INFRASTRUCTURE RELIABILITY AND REPLACEMENT
ADJUSTMENT IN ACCORDANCE WITH SECTION 20 OF ITS
GENERAL TERMS AND CONDITIONS
CASE NO. PUR-2017-00095

("CVA" or "Company"), filed with the State Corporation
Commission ("Commission") an application for approval to amend
Phase 2 of its SAVE Plan pursuant to the Steps to Advance
Virginia's Energy Plan (SAVE) Act, Chapter 26 of Title 56
("SAVE Act") of the Code of Virginia ("Code"), and for approval
to implement a 2018 Infrastructure Reliability and Replacement
Adjustment ("IRRA") ("Application").

In its Application, the Company requests approval to
increase the total five-year (2016-2020) cap on authorized Phase 2
SAVE Plan expenditures from $150 million to $173.8 million, and
to maintain the 5% tolerance band authorized in Case No.
PUE-2015-00071 ("2015 SAVE Order"). According to the
Company, its investments in the replacement of large-scale SAVE
eligible projects limit the funds available for smaller projects, and
the Company anticipates that it will exceed the current five-year
cap of $150 million if the Company maintains the current rate of
SAVE investments. CVA is not proposing to modify the operational aspects of its current SAVE Plan or the authorized categories of SAVE eligible infrastructure, nor is the Company proposing any other substantive changes to the terms and conditions of the SAVE Plan.

Section 56-604 A of the SAVE Act allows CVA to recover SAVE eligible infrastructure costs (as defined in Code § 56-603) through a SAVE Rider, which is defined in the Company's tariff as the IRRA. Accordingly, CVA requests authority to implement a 2018 IRRA in accordance with Section 20 of its General Terms and Conditions, as contemplated in the Commission's November 28, 2011 Order Approving SAVE Plan and Rider in Case No. PUE-2011-00049, as modified by the July 3, 2013 Order Approving Amended SAVE Plan in Case No. PUE-2013-00015 and extended by the 2015 SAVE Order. The 2018 IRRA comprises a 2016 Infrastructure Replacement Reconciliation Rate ("IRRR") and a 2018 Infrastructure Replacement Current Rate ("IRCR") and is billed as a combined fixed charge each month. The 2016 IRRR is designed to true-up the IRCR in effect for calendar year 2016 to the actual SAVE costs experienced during that time period, and the 2018 IRCR is designed to recover projected costs associated with SAVE-eligible infrastructure replacements during calendar year 2018.

In its Application, the Company seeks approval of the following: (1) the Company's 2016 IRRR credit in the amount of $1,263,556; (2) the Company's 2018 IRCR in the amount of $5,740,130; and (3) the filing of rate sheets implementing the 2018 IRCR and 2016 IRRR. The 2018 IRCR and the 2016 IRRR result in an IRRA total net charge to customers of $4,476,574 for 2018. The Company requests that the 2018 IRRA be effective with the first billing unit of January 2018 through the last billing unit of December 2018. The Company's 2018 IRRA proposed monthly rates by rate schedule are as follows: Residential Sales Service / Residential Transportation Service, $1.14; Small General Service 1 / Small General Transportation Service 1, $1.24; Small General Service 2 / Small General Transportation Service 2, $3.30; Small General Service 3 / Small General Transportation Service 3, $10.17; Large General Service 1 / Transportation Service 1, $96.59; and Large General Service 2 / Transportation Service 2, $463.14.

The details of these and other proposals are set forth in the Company's Application. Interested persons are encouraged to
review the Company's Application and supporting testimony and exhibits for the details of these proposals. While the total revenue that may be approved by the Commission is limited to the amount produced by the Company's proposed rates, TAKE NOTICE that the Commission may approve revenues and adopt rates, fees, charges, tariff revisions, and terms and conditions of service that differ from those appearing in the Application and supporting documents and may apportion revenues among customer classes and/or design rates in a manner differing from that shown in the Application and supporting documents.

The Commission entered an Order for Notice and Comment that, among other things, directed the Company to provide notice to the public and provided interested persons an opportunity to comment on the Company's Application.

A copy of the Company's Application may be obtained at no charge by requesting a copy of the same from the Company's counsel, James S. Copenhaver, Esquire, Columbia Gas of Virginia, Inc., 1809 Coyote Drive, Chester, Virginia 23836. The Application and related documents also shall be available for review in the Commission's Document Control Center, Tyler Building, First Floor, 1300 East Main Street, Richmond, Virginia 23219 between the hours of 8:15 a.m. and 5 p.m., Monday through Friday, excluding holidays. Interested persons also may download unofficial copies from the Commission's website: http://www.scc.virginia.gov/case.

On or before October 6, 2017, interested persons may file written comments on CVA's Application with Joel H. Peck, Clerk, State Corporation Commission, P.O. Box 2118, Richmond, Virginia 23218. Interested persons desiring to submit comments electronically may do so, on or before October 6, 2017, by following the instructions on the Commission's website: http://www.scc.virginia.gov/case. Comments shall refer to Case No. PUR-2017-00095.

On or before October 6, 2017, interested persons desiring to participate as a respondent in this proceeding shall file a notice of participation as a respondent pursuant to Rule 5 VAC 5-20-80 B of the Commission's Rules of Practice and Procedure. If not filed electronically on the Commission's website: http://www.scc.virginia.gov/case, an original and fifteen (15) copies of the notice of participation shall be filed with the Clerk of the Commission at the address set forth above. The notice of
participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. All filings shall refer to Case No. PUR-2017-00095, and copies thereof simultaneously shall be served on counsel for the Company.

On or before October 6, 2017, interested persons may request that the Commission convene a hearing on the Company's Application by filing a request for hearing with the Clerk of the Commission at the address set forth above. Requests for hearing shall refer to Case No. PUR-2017-00095 and shall include: (i) a precise statement of the filing party's interest in the proceeding; (ii) a statement of the specific action sought to the extent then known; (iii) a statement of the legal basis for such action; and (iv) a precise statement why a hearing should be conducted in this matter. All filings shall refer to Case No. PUR-2017-00095, and copies thereof simultaneously shall be served on counsel for the Company.

The Commission's Rules of Practice and Procedure may be viewed at http://www.scc.virginia.gov/case. A printed copy of the Rules of Practice and Procedure and an official copy of the Commission's Order in this proceeding may be obtained from Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P. O. Box 2118, Richmond, Virginia 23218-2118.

COLUMBIA GAS OF VIRGINIA, INC.

(3) On or before September 29, 2017, the Company shall serve a copy of this Order for Notice and Comment on the chairman of the board of supervisors and county attorney of each county and upon the mayor or manager (or upon equivalent officials) of every city and town in which CVA provides service in the Commonwealth of Virginia. Service shall be made by personal delivery or by first class mail, postage prepaid, to the customary place of business or residence of the person served.

(4) CVA promptly shall make a copy of the Application available to the public, who may obtain a copy of the Application at no charge by requesting a copy of the same in writing from the Company's counsel, James S. Copenhaver, Esquire, Columbia Gas of Virginia, Inc.,
1809 Coyote Drive, Chester, Virginia 23836. The Application and related documents also shall be available for interested persons to review in the Commission's Document Control Center, Tyler Building, First Floor, 1300 East Main Street, Richmond, Virginia 23219, between the hours of 8:15 a.m. and 5 p.m., Monday through Friday, excluding holidays. Interested persons also may download unofficial copies from the Commission's website:

(5) On or before October 13, 2017, the Company shall provide the Commission with the proof of notice and service required by Ordering Paragraphs (2) and (3).

(6) On or before October 6, 2017, interested persons may file comments on the Company's Application with Joel H. Peck, Clerk, State Corporation Commission, P.O. Box 2118, Richmond, Virginia 23218. Interested persons desiring to submit comments electronically may do so, on or before October 6, 2017, by following the instructions found on the Commission's website: http://www.scc.virginia.gov/case. Comments shall refer to Case No. PUR-2017-00095.

(7) On or before October 6, 2017, any interested person may participate as a respondent in this proceeding by filing a notice of participation in accordance with 5 VAC 5-20-140, Filing and service, and 5 VAC 5-20-150, Copies and format, of the Commission's Rules of Practice and Procedure ("Rules of Practice").14 If not filed electronically, an original and fifteen (15) copies of the notice of participation shall be submitted to the Clerk of the Commission at the address set forth in Ordering Paragraph (6). Pursuant to 5 VAC 5-20-80 B, Participation as a respondent, of the Rules of Practice, any notice of participation shall set forth: (i) a precise statement of the

14 5 VAC 5-20-10 et seq.
interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. All filings shall refer to Case No. PUR-2017-00095.

(8) On or before October 6, 2017, interested persons may request that the Commission convene a hearing on the Company’s Application by filing an original and fifteen (15) copies of a request for hearing with the Clerk of the Commission at the address set forth in Ordering Paragraph (6). Requests for hearing shall refer to Case No. PUR-2017-00095 and shall include: (i) a precise statement of the filing party’s interest in the proceeding; (ii) a statement of the specific action sought to the extent then known; (iii) a statement of the legal basis for such action; and (iv) a precise statement why a hearing should be conducted in this matter.

(9) A copy of any requests for hearing and notices of participation simultaneously shall be sent to counsel for the Company at the address set forth in Ordering Paragraph (4).

(10) The Staff shall investigate the Application. On or before November 3, 2017, the Staff shall file with the Clerk of the Commission an original and fifteen (15) copies of a Staff Report containing its findings and recommendations and promptly shall serve a copy of the same on counsel to the Company and all respondents.

(11) On or before November 17, 2017, the Company may file with the Clerk of the Commission any responses to the Staff Report and any comments or requests for hearing filed by interested persons in this proceeding.

(12) The Company shall respond to written interrogatories or requests for the production of documents within four (4) calendar days after the receipt of the same. In addition to the service requirements of 5 VAC 5-20-260, Interrogatories or requests for production of documents and things, of the Rules of Practice, on the day that copies are filed with the Clerk of
the Commission, a copy of the interrogatory or request for production shall be served
electronically, or by facsimile, on the party to whom the interrogatory or request for production
is directed or the assigned Staff attorney, if the interrogatory or request for production is directed
to the Staff.15 Except as so modified, discovery shall be in accordance with Part IV of the
Commission's Rules of Practice.

(13) This matter is continued generally pending further order of the Commission.

AN ATTESTED COPY hereof shall be sent by the Clerk of the Commission to:
James S. Copenhaver, Esquire, Columbia Gas of Virginia, Inc., 1809 Coyote Drive, Chester,
Virginia 23836; and C. Meade Browder, Jr., Senior Assistant Attorney General, Office of the
Attorney General, Division of Consumer Counsel, 202 N. 9th Street, 8th Floor, Richmond,
Virginia 23219-3424. A copy also shall be delivered to the Commission's Office of General
Counsel and Divisions of Public Utility Regulation, Utility and Railroad Safety, and Utility
Accounting and Finance.

---

15 The assigned Staff attorney is identified on the Commission's website: http://www.scc.virginia.gov/case, by
clicking "Docket Search," and clicking "Search Cases," and entering the case number, PUR-2017-00095, in the
appropriate box.

Re: Charter Communications - Changes

Dear Mr. Johnson:

I am writing to you as part of our ongoing efforts to keep you apprised of developments affecting Charter Communications subscribers in your area.

On or about September 12, the FXX network will be available on the Expanded Basic or Select tier channel lineup depending on which package chosen.

On August 30th, the Eleven Sports Channel was removed from our lineup.

We remain committed to providing an excellent experience for our customers, in your community and in each of the communities we serve. If you have any questions about this change, please feel free to contact me at (910) 401-5168 or via email at eric.collins@charter.com.

Sincerely,

Eric Collins
Director of Government Affairs
Charter Communications
September 5, 2017

Mr. Dallas O. Jones  
Chairman of the Board of Supervisors  
Southampton County  
Post Office Box 400  
Courtland, Virginia 23837

Dear Chairman Jones,

On behalf of Opportunity Inc. and the Hampton Roads Workforce Development Board (HRWDB), we thank the County of Southampton for its contribution to the regional workforce development system. Southampton's commitment will play a significant role in our success in providing much needed services to your citizens and business community. There is no way to fully express our gratitude in mere words.

We are inspired by the dedication and generosity of Southampton, and the other localities in our service region (Chesapeake, Franklin, Isle of Wight, Norfolk, Portsmouth, Suffolk and Virginia Beach), that allocated a per capita contribution to Opportunity Inc. Please do not hesitate to reach out to me and the Opportunity Inc. team as we continue to strengthen our partnership.

With immense gratitude,

Delceno C. Miles  
Chair  
Hampton Roads Workforce Development Board

cc: Michael W. Johnson, County Administration, Southampton County

Good morning, Ms. Dance. Thanks for sharing your parent’s concerns and questions. I’ve never had the pleasure of meeting them, but they’re to be commended for their continued interest in community affairs.

If the referendum passes, and a new Courthouse is constructed on Camp Parkway, it will add about 3.8 miles to their trip. From their residence, it’s currently about 19.3 miles to the Courthouse and the new facility would be approximately 23.1 miles. While there are no definite plans on how the existing Courthouse might be repurposed, the Board of Supervisors recognizes and appreciates the building’s historical value and is committed to preserving and protecting the original 1834 Courthouse. That said, the contemporary addition that was added in 1960 may or may not be preserved depending upon the final plan for repurposing. There have been a number of concepts and ideas discussed, including converting the building into a local museum or perhaps to office space for county departments, or for lease to local attorneys, CPA’s, engineers, etc. There may be other ideas as well, but we won’t consider them all until we know for sure whether or not the facility is moving.

Also, thank you for your comments and suggestions regarding the solid waste management fee. I’ll make sure to pass them along to the Board of Supervisors.

Kind regards,
Mike

Mr. Johnson,

My parents, Lilton & Florine, are residents of Ivor, VA. However due to their advanced age (98 and 95 years old respectively) they will be unable to attend the Sept. 19, 2017 Community Meeting in Ivor. They have asked me to pass along their questions and concerns.

How much further if any will residents of Ivor have to travel to the new facility site? If the Courthouse Referendum passes what will happen to the existing Courthouse and does it have any historical value to the county?

ALSO:
While they are very grateful for the Solid Waste Management Fee discount available based on income, they feel that the fee should be based on the number of persons in a household. They generate very limited waste as there are only two individuals in their household however their base fee is the same as a couple with 6 dependents in the household. They feel this is unfair. Any considerate given to is concern would be greatly appreciated.

Thanks for the opportunity to ask questions and provide input.

Blanche Dance
After public outcry, North Carolina governor delays decision on Atlantic Coast pipeline

The natural gas pipeline would cut across several waterways.

North Carolina has delayed issuing a Clean Water Act permit to a pipeline developer, saying the state needs more information to evaluate the project, which has come under fire from residents and environmentalists along the proposed route.

The state’s Department of Environmental Quality (DEQ) was required to rule on the Atlantic Coast Pipeline permit application by Monday, following months of review and a public comment period that left the state with thousands of letters opposing the massive project.

“We applaud Governor Cooper and DEQ for listening to North Carolinians and requiring Duke Energy and Dominion to provide more information so the state can thoroughly examine the water impacts that the Atlantic Coast Pipeline would have on our communities,” the Sierra Club’s Kelly Martin said in a statement.
In a letter sent Thursday by the North Carolina water quality chief to the developer of the Atlantic Coast Pipeline, the state said that in order to receive the permit, the company would have to submit more documentation about its plans to cross waterways along the pipeline’s proposed 600-mile route from the Marcellus basin to North Carolina.

The letter outlined nearly three pages of documentation still needed, including plans for restoring streams, monitoring sediment changes, and analysis of cumulative impacts from the project on waterways. The proposed pipeline would cross more than 1,000 streams. It would also run along 38 miles of Appalachian ridgeline as it carries 1.44 billion cubic feet of natural gas per day from West Virginia to North Carolina.

The developers have 30 days to respond to the letter, which also delays North Carolina’s decision on the project.

The pipeline’s developers have been pushing hard to get the project approved, even while questions remain about whether it is needed or will benefit any of the communities it passes through.

Late last week, executives from Dominion Energy, Duke Energy, and Southern Company Gas, who are partners in the project, petitioned the Federal Energy Regulatory Commission (FERC) to speed up federal approval of the $5.2 billion pipeline.

Environmentalists were furious at what they saw as an attempt to overwhelm local concerns.

“This last-minute request by the corporations behind the ACP is a blatant attempt to evade Virginia’s regulatory process and ram the approval of this pipeline through, especially as community opposition continues to grow,” Lewis Freeman, chair and executive director of the Allegheny Blue-Ridge Alliance, said in a statement.

Freeman pointed out that Virginia’s water regulator has not considered the project yet, and said the letter “raises serious questions about the motivation behind the ACP partners’ push to rush the process—whether it’s to undermine the Water Board, silence impacted community members, or sweep the widespread environmental, health, and safety risks under the rug.”
FERC’s final environmental impact statement, which is required under the National Environmental Policy Act, was “woefully inadequate” Freeman alleged earlier this year, when the statement was released.

Atlantic Coast Pipeline opponents criticize federal government’s ‘woefully inadequate analysis’

Even if FERC approves the project, however, developers still need to obtain approval from the states to build. Virginia is currently considering issuing a water quality permit. Under the Clean Water Act, states must certify that projects will not will violate “effluent limitations, new source performance standards, toxic pollutants restrictions, and other water resource requirements.”

In addition to farmers and environmentalists, community justice organizations have also criticized the ACP plan. In North Carolina, a disproportionate number of Native Americans — some 30,000 people — live along the proposed pipeline route. The pipeline will go through “almost every single contemporary and historical native community between western Virginia all the way down to southeastern North Carolina,” Fix Cain, a member of the Skaroreh Katenuaka Nation, told ThinkProgress last month.

This massive natural gas pipeline will run right through Native American communities

Meanwhile, the American Gas Association, a trade organization, launched an “astroturf” group — a public relations effort designed to look like grassroots support — to boost the project’s profile. The group, Your Energy, is specifically against climate activists who think fossil fuels should remain in the ground.

Much of the local opposition to the project, though, is due to the air and water quality risks the pipeline poses to residents.

The Atlantic Coast Pipeline isn’t the only major natural gas pipeline project facing local opposition. Earlier this week, West Virginia reversed its own issuance of a clean water permit for the Mountain Valley Pipeline, a 300-mile natural gas pipeline
proposed to run from West Virginia to Virginia. In that case, as well, environmentalists focused on concerns that cutting through waterways would negatively impact local water quality.
